

Short History & About Us

Fly Higher (FHI), an initiative of the APMVM Foundation has been working tirelessly to instil life skills and imbibe confidence in the underprivileged children and youth across India since 2018.

FHI, today is present in 13 cities across India, touching lives of over 2500 children through 1200 volunteers.

Enabling children & youth with 21st Century skills & competencies to be better prepared for life.

***Skills for All,
All for Skills***

Fly Higher (FHI) is a non-profit organization that focuses on developing essential 21st century skills in children. Through creative learning and the power of play, we strive to nurture the potential of children across India.

FHI is 100% volunteer run and we are passionate about bringing out the best in every child. Our vision is to create a world where every child gets the chance to reach their full potential.

Founders & Team

Our Founder – Mr. Vishal Mimani is a man of many interests and talents, yet his kindness is his strongest suit. With the support and encouragement of his dear friend Mr. Preetham Murva, our Founder’s simple hobby of spending time with underprivileged children has developed into Fly Higher (FHI) which now touches thousands of lives.

We have developed an organisational structure with a total of 40 National, Regional & City Leaders who research and identify beneficiaries and manage the volunteer team of 1200.

Response from beneficiaries

The response is just overwhelming. With over 50 partner schools across India, each one not only eager to have us back but also the kids love learning through activities. They welcome us with open arms and look forward to new learnings while recapitulating what was learnt on our previous visit.

Impact

Our impact is primarily seen in two sets of people. One being the children we engage with having monitored their growth and development. We see better confident and awareness in them. An otherwise shy and introvert child is now opening up to showcase his/ her interest in life despite hardships. They feel there is hope and an encouragement to be able to succeed in life. The exposure they receive through FHI is invaluable.

The other set of people being the volunteers, who also find FHI an excellent platform to develop their own skills and knowledge. Not only do they work in a team of like minded people from diverse backgrounds but also get to take-up leadership positions and make friends for life.

FHI is headquartered in Bangalore and is also present in Ahmedabad, Bangalore, Chennai, Delhi, Hyderabad, Indore, Jaipur, Kolkata, Lucknow, Mumbai, Pondicherry, Pune, Rajkot.
